

‘JUN-KI-SUI’ offers double role.

NO

1

Filling oxygen by aseptic processing.

Enough oxygen to drink,  
**abundant oxygen water**

Oxygen can change our modern life.

Oxygen is essential for human body. But modern life cycle such as lack of exercise and promiscuous eating habits are main caused for lack of oxygen in a body. Drinking alcohol and smoking is can be one of cause for it. Let's Take abundant oxygen and make body and mind fresh.

‘JUN-KI-SUI’ offers double role.

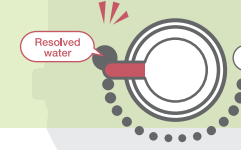

Using patented technology!!

Chang tap water into resolved water.

NO

2

**Resolved water**

Using Power of Ozone produces magical effect

Using Resolved water contains ozone offers most bacteria and virus to be disinfected. It is much taken into accounted for environment and no need to worry about secondary environmental pollution. It is so widely used for children's gargle and hand washing as an effective disinfectant that should be helpful for our life.

## Refresh

- **Sports supplement drink**  
It can resupply lost fluid water and oxygen quickly.
- **For study**  
Best suit for long time study. It reduces a fatigue.

## Health

- **As a support of diet**  
Only for losing weight or rather become a beauty and healthy body.
- **For smoker**  
Take abundant oxygen. It can act against active oxygen that generated from smoking and much stress.

## Assure

- **Nonbacterial water can be used safely for the baby.**  
Changing Tap water into nonbacterial by using aseptic processing (ozone plus activated carbon) enable to be used at ease for the baby.

## Cleanliness

- **Effective as a mouth and gaggle washer become more powerful.**  
It makes washing mouth and gaggle more effective. Gaggling by ozone water enables mouth to be disinfected and prevents cavity and bad breath.

Using disinfectant capacity of ozone enables to remove slimy grime and unpleasant odor from sink.
- **Bleaching, deodorizing and disinfecting kitchen tools.**  
For your pure and healthy life, it makes kitchen tools bleached, deodorized and disinfected.

Structure of abundant Oxygen water (what is the aseptic processing purification!?)

World's first

Using a patented original technology!! JUN-KI-SUI produces comfortable, health and safety life.

Using our patented ejector technology allows water, treated by our own original process, to be added to much more oxygen. JUN-KI-SUI is a purified and abundant oxygen water (3~5mg/L) which is dissolved five times as much oxygen as usually amount of oxygen in tap water (15~20mg/L).

It can produce two type of water just at the flick of a switch!!

Abundant oxygen water

Water contains abundant oxygen make you feel fresh after paying sport or studying!!

Resolved water

Resolving agrochemical and disinfect it in an environmental-friendly way. It can prevent slimy grime and unpleasant odor.
